**EDWARDSVILLE POLICE DEPARTMENT
MEMORANDUM**

TO: Dr. Farrar
Chair, Public Safety Committee

FROM: Chief Mike Fillback
Chief of Police

DATE: Tuesday, July 25, 2023

SUBJECT: Request to Purchase Squad Cars and Associated Equipment

During the budget process for Fiscal Year 2023/2024, police department staff requested, and was granted, approval to purchase four (4) fully equipped patrol vehicles to replace older vehicles within our fleet, at a cost not to exceed \$211,395.73. The funding for these vehicles will be provided through Capital Equipment.

As in previous years, delivery of vehicles from the state bid contract will likely be delayed. Understanding the potential for delay, City Administrator Head has given our department the approval to begin the process of ordering vehicles and associated equipment. As always, our goal is to obtain vehicles as soon as they arrive at the dealership, allowing our department to be “first in line” for equipment installation.

Listed below is a breakdown of estimated costs for purchasing and equipping these vehicles.

<u>Estimated</u>	
Vehicle Cost (State Bid):	\$165,880.00
Equipment and Installs from DataTronics:	\$38,190.76
Vehicle Graphics from Adgraphix:	\$2,150.00
Raptor RP-1 Dual Band Radars	<u>\$5,174.97</u>
TOTAL:	\$211,395.73

I am respectfully requesting to purchase the needed vehicles and associated equipment, **at a price not to exceed \$211,395.73**, utilizing funds approved for this fiscal year, as noted above. This figure is \$8,940.27 below the expenditure approved for this year’s vehicle purchase.

I am prepared to address any concerns of the City Council. Thank you in advance for your consideration in this matter.

ACTION ITEM TITLE: RESOLUTION
AUTHORIZING THE PURCHASE OF ONE (1)
TRAUMAHAWK X-SERIES ALUMINUM TYPE I CUSTOM
AMBULANCE AND ASSOCIATED EQUIPMENT IN AN
AMOUNT NOT TO EXCEED \$354,057.00

ORIGIN:

SUMMARY:

This Resolution authorizes the purchase of one (1) TraumaHawk X-Series Aluminum Type I Custom Ambulance with Ford F550, LWB, 4x4, Diesel and associated equipment from American Response Vehicles, located at 521 Hillsdale Rd, Columbia, MO 65201, for a total cost of \$354,057.00.

RATIONALE:

The Fire Department is requesting to purchase an ambulance locking in today's prices, but not take delivery of the unit or pay for the unit until it is completed approximately two years from now.

EFD has been working to standardize the ambulance fleet in order to simplify operations and improve maintenance efficiency. The Department is scheduled to replace the oldest, and last small box, ambulance in FY 25/26. In today's economy delivery on a new ambulance is about 48 months out, consequently an order in 2023 will not be delivered until 2025. ARV's current pricing program locks-in today's prices for that two year period. This is something ARV competitors do not currently do, presumably due to expected cost increases over that time. EFD currently has a remounted American Response Vehicle (ARV) ambulance and has found this brand to be well constructed and reliable.

The ambulance would be purchased through a joint purchasing agreement with HGACBuy, of which Edwardsville is a member.

COMPLIANCE WITH COMPREHENSIVE PLAN OR OTHER PLAN: N/A

Cover letter

Dear Brendan McKee,

Thank you for this opportunity to provide pricing on your new ambulance.

An AEV ambulance is one of the safest and most durable ambulances in production today. From the drawing board to the laboratory and finally, to the road, AEV is the most tested ambulance on the market. AEV ambulances are put to the test in markets like the Kansas City Metro Area, St. Louis Metro Area, Chicagoland Area, and countless communities across the Midwest, with hundreds of units and millions of miles between them. Of the industry-leading 1,400 plus units that AEV produced in 2019 year alone, American Response Vehicles sold 144 units to customers in 7 states. AEV regularly conducts Crash Testing to ensure the body structure is as safe as possible. In fact, AEV tested a Single Type III ambulance not once, but twice at 42 mph per impact. The results were remarkable; all doors still opened and closed, and all cabinets remained intact and undamaged.

Additionally, AEV performed a dynamic pull test to 17,500 pounds on their restraint system. This is 5-Times what is required by the DOT and FMVSS; and with the IMMI Per4Max restraint, you can trust that your crews will be safe. AEV also tests the overall integrity of their modular body and recently increased their static load testing to 75,000 pounds on the conversion's side and roof, which is approximately double what is required. Finally, AEV ambulances are built in the USA by men and women who take pride in their work. From AEV's current 135,000 sq. ft. campus to their new 275,000 sq. ft. facility with state-of-the-art Paint Booths, Laser Routers, and Lean Certified Production, you can trust that AEV will not only meet but exceed your expectations.

American Response Vehicles (ARV) is a locally owned Missouri Small Business. ARV currently employs 21 people, and our team is comprised of Service Technicians, Parts Department, Graphics Designer & Installer, Sales, and Sales Support Staff. American Response Vehicles is proud to offer service at our facilities in Columbia, Chicago, or on-site at your location. With over 120 satisfied customers and counting, we here at American Response Vehicles look forward to working with you!

All AEV ambulances are built to exceed the requirements of the F.M.V.S.S. and KKK-A-1822-F, and can be built in line with CAAS and NFPA as well. All AEV ambulances are built on ambulance prep chassis.

off the premises by authorized representatives of its own or any public accounting firm selected by H-GAC. ARTICLE 15: TERMINATION PROCEDURES

The Contractor acknowledges that this Agreement may be terminated for Convenience or Default.

- A. *Convenience*
H-GAC may terminate this Agreement at any time, in whole or in part, with or without cause, whenever H-GAC determines that for any reason such termination is in the best interest of H-GAC, by providing written notice by certified mail to the Contractor. Determination of force majeure shall rest solely with H-GAC.

ARTICLE 3: MOST FAVORED CUSTOMER CLAUSE

Contractor shall provide its most favorable pricing and terms to H-GAC. If at any time during this Agreement, **Contractor** develops a regularly followed standard procedure of entering into agreements with other governmental customers within the State of Texas, and offers the same or substantially the same products/services offered to **H-GAC** on a basis that provides prices, warranties, benefits, and or terms more favorable than those provided to **H-GAC**, **Contractor** shall notify **H-GAC** within ten (10) business days thereafter, and this Agreement shall be deemed to be automatically retroactively amended, to the effective date of **Contractor's** most favorable past agreement with another entity. **Contractor** shall provide the same prices, warranties, benefits, or terms to **H-GAC** and its **END USER** as provided in its most favorable past agreement. **H-GAC** shall have the right and option at any time to decline to accept any such change, in which case the amendment shall be deemed null and void. If **Contractor** claims that a more favorable price, warranty, benefit, or term that was charged or offered to another entity during the term of this Agreement, does not constitute more favorable treatment, than **Contractor** shall, within ten (10) business days, notify **H-GAC** in writing, setting forth the detailed reasons **Contractor** believes the aforesaid offer is not in fact most favored treatment. **H-GAC**, after due consideration of **Contractor's** written explanation, may decline to accept such explanation and thereupon this Agreement between **H-GAC** and **Contractor** shall be automatically amended, effective retroactively, to the effective date of the most favored agreement, to provide the same prices, warranties,

benefits, or terms to H-GAC and the END USER.

***EXCEPTION:** This clause shall not be applicable to prices and price adjustments offered by a bidder, Proposer or contractor, which are not within bidder's/proposer's control [example; a manufacturer's bid concession], or to any prices offered to the Federal Government and its agencies.*

ARTICLE 4: PARTY LIABILITY

Contractor's total liability under this Agreement, whether for breach of contract, warranty, negligence, strict liability, in tort or otherwise, is limited to the price of the particular products/services sold hereunder. Contractor agrees either to refund the purchase price or to repair or replace product(s) that are not as warranted. Contractor accepts liability to repay, and shall repay upon demand to END USER, any amounts determined by H-GAC, its independent auditors, or any state or federal agency, to have been paid in violation of the terms of this Agreement.

ARTICLE 5: GOVERNING LAW & VENUE

Contractor and H-GAC agree that Contractor will make every reasonable effort to resolve disputes with the **END USER** in accord with the law and venue rules of the state of purchase. **Contractor** shall immediately notify **H-GAC** of such disputes.

ARTICLE 6: SALES AND ORDER PROCESSING CHARGE

Contractor shall sell its products to **END USERS** based on the pricing and terms of this Agreement. **H-GAC** will invoice **Contractor** for the applicable order processing charge when H-GAC receives notification of an END USER order. **Contractor shall remit to H-GAC** the full amount of the applicable order processing charge, after delivery of any product or service and subsequent END USER acceptance. Payment of the Order Processing Charge shall be remitted from Contractor to H-GAC, within thirty (30) calendar days or ten (10) business days after receipt of an END USER's payment, whichever comes first, notwithstanding Contractor's receipt of invoice. For sales made by **Contractor** based on this Agreement, including sales to entities without Interlocal Agreements, **Contractor** shall pay the applicable order processing charges to **H-GAC**. Further, **Contractor** agrees to encourage entities who are not members of H-GAC's Cooperative Purchasing Program to execute an **H-GAC** Interlocal Agreement. **H-GAC** reserves the right to take appropriate actions including, but not limited to, Agreement termination if **Contractor** fails to promptly remit the appropriate order processing charge to H-GAC. In no event shall **H-GAC** have any liability to **Contractor** for any goods or services an **END USER** procures from **Contractor**. At all times, **Contractor** shall remain liable to pay to **H-GAC** any order processing charges on any portion of the Agreement actually performed, and for which compensation was received by **Contractor**.

ARTICLE 7: LIQUIDATED DAMAGES

Contractor and H-GAC agree that Contractor shall cooperate with the END USER at the time an END USER purchase order is placed, to determine terms for any liquidated damages.

ARTICLE 8: INSURANCE

Unless otherwise stipulated in Section B of the Bid/Proposal Specifications, **Contractor** must have the following insurance and coverage minimums:

- a. **General liability** insurance with a Single Occurrence limit of at least \$1,000,000.00, and a General

Aggregate limit of at least two times the Single Occurrence limit.

Product liability insurance with a Single Occurrence limit of at least \$1,000,000.00, and a General Aggregate limit of at least two times the Single Occurrence limit for all Products except Automotive Fire Apparatus. For Automotive Fire Apparatus, see Section B of the Bid/Proposal Specifications.

Property Damage or Destruction insurance is required for coverage of **End User** owned equipment while in **Contractor's** possession, custody or control. The minimum Single Occurrence limit is \$500,000.00 and the General Aggregate limit must be at least two times the Single Occurrence limit. This insurance may be carried in several ways, e.g. under an Inland Marine policy, as art of Automobile coverage, or under a Garage Keepers policy. In any event, this coverage must be specifically and clearly listed on insurance certificate(s) submitted to **H-GAC**.

- b. Insurance coverage shall be in effect for the length of any contract made pursuant to the Bid/Proposal, and for any extensions thereof, plus the number of days/months required to *deliver* any outstanding order after the close of the contract period.
- c. Original Insurance Certificates must be furnished to **H-GAC** on request, showing **Contractor** as the insured and showing coverage and limits for the insurances listed above.
- d. If any Product(s) or Service(s) will be provided by parties other than **Contractor**, all such parties are required to carry the minimum insurance coverages specified herein, and if requested by **H-GAC**, a separate insurance certificate must be submitted for each such party.
- e. **H-GAC** reserves the right to contact insurance underwriters to confirm policy and certificate issuance and document accuracy.

ARTICLE 9: PERFORMANCE AND PAYMENT BONDS FOR INDIVIDUAL ORDERS

H-GAC's contractual requirements DO NOT include a Performance & Payment Bond (PPB); therefore, Contractor shall offer pricing that reflects this cost savings. **Contractor** shall remain prepared to offer a PPB to cover any order if so requested by the **END USER**. **Contractor** shall quote a price to **END USER** for provision of any requested PPB, and agrees to furnish the PPB within ten business (10) days of receipt of **END USER's** purchase order.

ARTICLE 10: CHANGE OF STATUS

Contractor shall immediately notify **H-GAC**, in writing, of **ANY** change in ownership, control, dealership/franchisee status, Motor Vehicle license status, or name. Contractor shall offer written guidance to advise H-GAC if this Agreement shall be affected in any way by such change. **H-GAC** shall have the right to determine whether or not such change is acceptable, and to determine what action shall be warranted, up to and including cancellation of Agreement.

ARTICLE 11: TEXAS MOTOR VEHICLE BOARD LICENSING

All that deal in motor vehicles shall maintain current licenses that are required by the Texas Motor Vehicle Commission Code. If at any time during this Agreement term, any required **Contractor** license is denied, revoked, or not renewed, **Contractor** shall be in default of this Agreement, unless the Texas Motor Vehicle

Board issues a stay or waiver. Contractor shall promptly provide copies of all current applicable Texas Motor Vehicle Board documentation to **H-GAC** upon request.
