Habitat ReStores are retail outlets where quality used and surplus building materials are sold at a fraction of normal prices. Proceeds from ReStores help local affiliates fund the construction of Habitat houses within the community.

Materials sold by Habitat ReStores are usually donated from individuals, building supply stores, contractors, or demolition crews who wish to show their support for Habitat. In addition to raising funds, ReStores help the environment by rechanneling good, usable materials into use.

Donations are accepted during business hours only.
