FOR IMMEDIATE RELEASE

As the colder part of the year arrives the City of Edwardsville announces warming station location.

Cold weather can place those over 65 and those with medical conditions at risk along with infants, young children.

Warming stations are available to give residents who don't have access to heated spaces a break from cold temperatures, even a few hours in a warmer environment can help a person's body cope with the cold.

This year warming stations are taking special COVID-19 precautions so occupancy limitations; social distancing and face coverings may be required.

The Edwardsville Public Safety Building lobby is open to the public 24/7 and is immediately available for short term warming. Longer term needs will be addressed on a case by case bases.
